visiting her cousin, Miss Mary Nolan, Mortgage Eurning Service Arranged for June 8-Indebtedness of \$1,600 Raised in Last Year.

Following steady, persevering efforts for nearly six years past, the Third Baptist church of Greeneville has at length succeeded in paying off its entire indebtedness and preparations for the proposed celebration of this successful culmination of years of toil and sacrifice are now being made. A mort-gage burning will be held at the church Wednesday evening, June 8, and plans are now being made to have former pastors of the church present at the joyful occasion and to invite other clergymen of the city to participate in the services.

The programme will include an afternoon and an evening session, and already it has been arranged to have Rev. Charles L. Snow of West Medway, Mass, a former pastor, and Rev. Dr. A. B. Coats of Hartford, secretary of the Baptist state convention, as two speakers. All friends of the church will find a cordial welcome at the services.

For about fifteen years the Third Baptist church has been in debt, from various causes. Six years ago, when Rev. Charles L. Snow assumed the pastorate, there was a mortgage of about \$2,500 on the church. When he left three years later, and his place was taken by Rev. Joseph R. Very, the present pastor, the mortgage had been brought down to \$1,500 a reduction most pleasing to all. Rev. Mr. Very came to Greeneville in January, 1908, and at once took dp the work of further reducing the debt in an energetic manner. During his first year \$200 was paid off, the plan of payment being that everyone interested give 50 cents a month through

ARGUMENTS FINISHED IN BLACKMAILING CASE.

Following Judge's Charge It Will Go to Jury This Morning-Mrs. Quinn Denies All Knowledge of the Letter.

When the criminal superior court opened here on Thursday morning, Charles B. Chapman was called as a witness on handwriting in the black-mailing case in which Mrs. Katherine Quinn is the accused. He was of the opinion that two persons did the specimens in question. State Attorney Hull cross examined him at length. Mary Horan, aged 11, was called and tostified that she went to the post-office for mail for those in her house-hold, she living with her aunt. Mrs. Quinn, and also for the telephone exchange, which is located in the same building where she lives. She had previously received mail for John Quinn, but claimed she was not sent to the postoffice to get mail addressed

previously received mail for John Quinn, but claimed she was not sent to the postoffice to get mail addressed to John M. Quinn. She testified that she got the letter and that Sergeant Twomey talked with her and went to her home with her.

The accused was called to testify and told of Sergeant Twomey coming to her house and asking about the letter which the Horan girl had brought in. She declared she never touched it and knew nothing about it. At the request of Sergeant Twomey she wrote a statement to the effect that he might have the letter which the girl had brought to her house addressed to John M. Quinn. He asked her many questions. She denied that she ever wrote a letter to Jacob Stein. State Attorney Hull showed the witness her own signature and in that connection a written document, but as it was not in evidence it was not allowed. When he asked Mrs. Quinn to write there was objection and much argument among the lawyers. Judge Wheeler decided that Mrs. Quinn could do as she pleased about writing and upon advice of her counsel she refused to do it. There was no rebuttal and after the testimony of Mr. Hayes the testimony was completed. She was on the stand some time, and the testimony was not completed antil afternoon.

The arguments were made by Attor.

FOOD FOR MEMORY The Kind That Builds Up the Brain.

It is hard to believe that certain kinds of food will strengthen the memory, and yet, upon the condition of the brain depends the character of the mind, and its power to remember and to exert itself in various ways, and a healthy brain can only be maintained by well selected food. Now we know that daily use of the brain uses up certain parts that are thrown out through the pores to the outer surface of the skin. This waste is natural and must be made up from

Grape-Nuts food was made especially to rebuild the brain and nerve centres. An experience in Chicago will illustrate "I had a terrible siege of gastritis; my stomach refused everything in the way of food until I got hold of Grape-Nuts. It was perfectly wonderful and marvelous to see the difference—I be-

gan to improve at once.

"I weighed myself about that time and found that I had 118 pounds to my credit. I gained in weight, strength and health steadly and rapidly, and now weight 160 pounds and am strong and in better health than ever in my life.

"I have lately had a seven m course of instruction in vocal must and have memorized 58 songs and me of the accompaniments besides sev plane pieces. When I started in seemed difficult to memorize one. my memory has been growing better every day and all now find ft easy to commit to memory without difficulty 'I have taken no medicine, but my steady diet of Grape-Nuts food has given me strength, health and mem-ory."
